

Xiaomi Mi Pad Rear Camera Replacement

Remove the rear-facing 8 MP camera from your Xiaomi Mi Pad.

Written By: Kiefer Sivitz

INTRODUCTION

Use this guide to remove the rear-facing camera from your Xiaomi Mi Pad.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Phillips #000 Screwdriver](#) (1)
 - [SIM Card Eject Tool](#) (1)
-

Step 1 — Rear Case Assembly

- Remove the micro SD card slot from the left side of the device using either the metal pin included with the device or a SIM card eject tool.

Step 2

- Use a plastic opening tool and/or opening pick to gently pry the back panel away from the device. Work your way around the device, slowly increasing the gap.
- ⓘ The back panel has small clips and light adhesive that easily releases from the device.

Step 3 — Rear Camera

- Remove the twelve 3.0 mm Phillips #000 screws on the upper cover of the device.

Step 4

- Remove the upper cover from the device.

Step 5

- Use a plastic opening tool to disconnect the rear-facing camera from the motherboard.

Step 6

- Carefully remove the rear camera from the device.

To reassemble your device, follow these instructions in reverse order.
